

ASSESSMENT TIME

Assessment time is just around the corner. What a great opportunity to explain more about what assessments are and how they work!

What is a property assessment?

A property assessment is a value assessed to a piece of property including land and any improvements (buildings) on that property.

What is a property assessment notice?

A property assessment notice is a paper form that is sent to the owner of a property explaining what the new value (assessment) of the property and improvements are. They are sent to any owner who has a change in an assessment. If it is a re-valuation year, which happen on a four year cycle, every property owner will receive one.

Who sets the assessment value? SAMA (Saskatchewan Assessment Management Agency) completes the assessments for most municipalities within the province and they are who sets the assessment values for Carnduff.

How does SAMA determine the assessed value? They have a complex formula system, which must be explained by a SAMA appraiser.

What's next?

Each year the Town is legally required to provide an assessment notice to any property owners with changes to their assessment. Once the notices have been completed, they will be mailed to any property owners whom are required to receive one. The roll is then declared "open". Owners have 30 clear days to review and appeal their assessment. These dates are clearly stated on the Notice of Assessment posted by the Town. Watch for this notice to be posted sometime in March.
